Summary

B.Tech graduate in Computer Science (AI & ML) with hands-on experience developing AI-driven and full-stack applications using Python, Flask, SQL, and machine learning frameworks. Experienced in data preprocessing, model development, and deploying web applications. Strong problem-solving skills with a passion for building practical AI solutions and applying machine learning to real-world problems.

Technical Skills

AI & Machine Learning : Data Preprocessing, Feature Engineering, EDA, Regression, Classification, Clustering, Model Evaluation, TensorFlow, Scikit-learn, FAISS, LLM Integration

Programming : Python, R

Web Development : Flask, HTML, CSS, JavaScript

Databases : PostgreSQL, SQLite, MySQL

Tools & Platforms : Git, GitHub, Render, Streamlit

Soft Skills: Problem Solving, Teamwork, Collaboration, Time Management, Creativity

Projects

Smart Health Monitoring System | Python, Flask, SQLite, FAISS, LLM

GitHub

- Contributed to an AI-powered health monitoring system using Flask, SQLite, FAISS, and LLMs.
- Developed the frontend and Flask routes with input validation and backend integration.
- Designed user-friendly result pages and ensured a smooth end-to-end user experience.

OCR Text Converter | Python, OpenCV, TensorFlow, Node.js

GitHub

- Contributed to an OCR application for extracting text from images using AI-based text recognition.
- Developed the React frontend and integrated it with Node.js APIs for OCR processing.
- Implemented image upload, response handling, and responsive UI for a seamless user experience.

Customer Churn Prediction System | Python, Scikit-Learn, Pandas, NumPy

GitHub

- Developed a machine learning model to predict customer churn using historical customer data.
- Performed data preprocessing, feature engineering, and model training using Logistic Regression and Random Forest algorithms.
- Analyzed feature importance and visualized results to identify factors influencing customer retention.

Education

Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad

Nov 2022 – Aug 2026

B.Tech in Computer Science and Engineering (AI and ML)

CGPA: 7.52

Narayana Junior College, Hyderabad

July 2020 - June 2022

Class XII (Intermediate Education)

Percentage: 84.4%

Chinmaya Vidyalaya, Hyderabad

June 2019 – March 2020

Class X (Secondary Education)

Percentage: 70.4%

Certifications

- AI & ML Training Program – iHub-Data, IIIT Hyderabad
- Machine Learning Fundamentals - Alteryx
- Artificial Intelligence Fundamentals - IBM SkillsBuild
- Joy of Computing using Python - NPTEL
